ABSTRACT

Disclosed is a mask composition comprising:

- (1) **a water insoluble substrate; and**
- (2) **a liquid composition comprising:**
 - (a) **a skin tone changing agent selected from the group consisting of skin tone changing pigments, reflective particulate material, and mixtures thereof, wherein the skin tone changing agent has a particle size of at least about 100nm;**
 - (b) **a water-soluble thickening agent which provides the liquid composition a viscosity of from about 1000 mPa·s to about 600,000 mPa·s; and**
 - (c) **an aqueous carrier.**
